

# uprights 1120 mm

Uprights are the framework of the vertical sales outlet entrance and exit management system. Our range provides mirror-polished chrome plated standard finishing. Chrome plated uprights are available with plastic sleeves in three different colours: black, grey or metallized. Uprights are equipped with chrome plated clips for the erections of transparent acrylic dividers (Plexiglas®). Standard upright height is 1120 mm - D48 - thick. 1.5 mm.

## Change the sleeves colour

In all codes on this page, the second digit indicates the colour of the plastic sleeve in the gate kit:  
 3 means **black** plastic; 5 means **grey** plastic;  
 8 means **chrome plated** plastic.

Exemple: *last upright in the table*

- code 240 311 711 = black plastic sleeves
- code 250 311 711 = grey plastic sleeves
- code 280 311 711 = chrome plated plastic sleeves

# uprights 2000 mm

Used especially in discount stores, this economical alternative to barriers as tubes have become necessary, with the increase in shoplifting attempts, in all areas of store outlets that are far away from areas normally manned by the presence of cashiers or information booths. They are also valid when used to make visible and protect those areas typically used for promotion and offerings in large hypermarkets.

Standard height is 2000 mm. - D48 - thick. 1.5 mm
